

Meet the rest of the team...

Bill O'Brien – Contracts Manager

"I have been in the industry for many, many, many years and the importance of doing a good job is the same now as it was in the sixties when I started..... or was that the fifties!"

Isabel Silva – Contracts Manager

"I love my job and take it very seriously as I believe what we do as a company makes a real difference to how our client companies perform because the cleaning in their offices is now something that they do not even have to think about"

Ana Esguedelhado – Area Supervisor

"I sometimes work long hours with my cleaners to ensure they know their jobs and the best way of doing it, this ensures that my clients are always happy with the cleaning we do for them, which is the reward I want for the hours I put in"

Monica Najera – Area Supervisor

"I love the clients in my portfolio and I love dealing with them on a daily basis, but it only works like this when my cleaners are doing what they should, so because of this I pay a lot of attention to my cleaners and ensure they are well supervised and motivated"

Edwin Cardenas – Area Supervisor

"I work hard to build good relationships with my clients but this can only work if my cleaners are always carrying out their jobs to a 100%, which they do. This then gives me and my clients the satisfaction to maintain the relationship and also the appreciation of the cleaners in what they do for us"
